

The Digital Prototyping Difference in Manufacturing

(An inside look at how successful manufacturers are future-proofing their businesses)

ENVIZAGE

Design. Visualise. Build.

“The Autodesk approach to Digital Prototyping is unique in that it is scalable, attainable, cost-effective... with minimal disruption to existing work flows...”

“The most straightforward path to creating and maintaining a single digital model in a multidisciplinary environment...”

“Reduce design and production costs...”

“2D and 3D connected together...”

“Create a single digital model that can be used in every stage of production, bridging the gaps that usually exist between conceptual design, engineering, and manufacturing...”

► September 9 – Dandenong Region

Morning Session commences 9:00am (includes lunch) • Repeated at 2:00pm (includes drinks & canapes)
Free Admission • Venue: Sandown Regency Melbourne, 477 Princes Highway, Noble Park • Free on-site parking

► September 10 – Campbellfield Region

Morning Session commences 9:00am (includes lunch) • Repeated at 2:00pm (includes drinks & canapes)
Free Admission • Venue: Quality Hotel Melbourne Airport, 265 Mickleham Road, Tullamarine • Free on-site parking

ENVIZAGE. Formerly known as CADCENTRE Asia Pacific.

- **A unique combination of technology explained, real world business cases, live interviews, hands-on technology “test drives”, and an opportunity to discuss digital prototyping and how it applies to you with our Autodesk accredited technical expert. Technology information session includes:**

“Digital Prototyping 101”

2D and 3D - ease of use... using Parametric Modelling... creating Parts, Assemblies, and 2D Output Drawings... Easy Editing... Easy Bill Of Materials... Interfacing with CAM, Milling, Cutting Machines... Testing Before it is Built... Finite Element Analysis...

“Let’s Get Physical”

Prototyping... rapid manufacturing... verify the virtual model... for marketing, executive decision making and production planning purposes...

“...And That’s Not All!”

Using your 3D Information in Documentation (i.e. animated 3D training materials... workshop manuals... user guides...)

“In Their Own Words”

Customer Case Study interviews with open Q&A forum.

“It’s Working For Them”

Digital Prototyping successes in a range of industries.

“The Road Ahead”

Where to from here... how to embrace Digital Prototyping at your own pace.

“Take It For A Test Drive”

Hands-on opportunity to try out Digital Prototyping technology.

If you are unable to attend but would like information on Digital Prototyping please contact us. Phone 1300 553 384 or email contact@envizage.com.au
