

FROM THIS...

TO THIS!

YOU **CAN** CONTRIBUTE TO THE FUTURE OF OUR NATION!

Become a Member of the REA Foundation.

- + The REA Foundation is a group of companies, organisations, schools and individuals assisting REA in our quest to excite, equip and guide the next generation towards engineering and technical careers... via a range of active learning programs.
- + Depending on your level of membership you could receive invitations to events and competitions, regular newsletters, opportunities to collaborate with students, branding featured on our websites, and the post nominal - MRa.
- + Corporate Memberships start from \$500 + GST per annum (for 0-50 employees) and Individual Membership is \$250.00 + GST p.a.
- + Interested? Download the Membership Form (http://www.rea.org.au/foundation/REA_Foundation_Membership_Form.pdf) and email it to contact@rea.org.au, or contact REA Marketing Manager Craig Hingston on 1300 554 503

Become a National Partner of the REA Foundation.

- + Join an illustrious group of corporations, organisations and government bodies which have made financial commitments to the work of REA Foundation.
- + The benefits are extensive including free invitations to a range of events – such as the National Finals, being an industry role model, providing judges for finals, and taking advantage of our media coverage on television, radio, newspapers, magazines, and websites to expose your branding even more.
- + For a copy of the REA Foundation corporate prospectus detailing past and present partners, contributions and outcomes contact REA Marketing Manager Craig Hingston on 1300 554 503.

Become a Role Model.

- + Young people need heroes in life and a part of our success is related to the use of industry role models and heroes. You can motivate and encourage the next generation to pursue a certain career by making yourself available... via an online job profile ("A Day In The Life Of"), a case study or interview, visiting a classroom, web conferencing with students, inviting them to your work place, sharing your own expertise, etc.
- + Interested? Please send us an email to contact@rea.org.au or contact REA Marketing Manager Craig Hingston on 1300 554 503.

Become an Industry Class F1 Race Team.

- + REA has introduced a new class to the F1 in Schools Technology Challenge which allows professional engineers and technicians to take part in the competition.
- + Your task is to design the fastest model F1 car in the world using your CAD system, and aligning with a local school where you can make, test and race it.
- + The entry fee is \$300.00 + GST and includes a kit with rules, balsa block, wheels, axles.
- + Interested? Go to <http://www.f1inschools.org.au/industry/> for all the information or contact REA Marketing Manager Craig Hingston on 1300 554 503.
